This section explains the optimal order and strategies to efficiently complete the main quests for a 100% walkthrough experience.

Divine Beasts Liberation

There are four Divine Beasts to be liberated, each guarded by a unique dungeon and boss. Successfully freeing these beasts weakens Calamity Ganon and grants powerful abilities.

1. **Vah Ruta** – Located in Zora's Domain, requires solving water-based puzzles.
2. **Vah Medoh** – Found near Rito Village, involves aerial navigation challenges.
3. **Vah Rudania** – Positioned on Death Mountain, features volcanic terrain and fire hazards.
4. **Vah Naboris** – In the Gerudo Desert, includes stealth and electrical puzzle elements.

Prioritize acquiring necessary gear and completing prerequisite side quests to facilitate each dungeon's challenges.

Recovering Link's lost memories is vital for 100% completion. These scattered memory locations add narrative depth and unlock additional cutscenes.

- Use the Sheikah Slate's camera to identify memory locations.
- Visit each marked spot to trigger flashback scenes.
- Memories are essential for fully understanding the storyline and fulfilling completion criteria.

Confronting Calamity Ganon

After liberating the Divine Beasts and recovering memories, players unlock the final battle at Hyrule Castle. Preparation is key, including upgrading weapons, armor, and health. This climactic encounter concludes the main storyline.

Shrines and Spirit Orbs

Shrines are mini-dungeons scattered throughout Hyrule, each offering unique puzzles and combat challenges. Completing shrines yields Spirit Orbs, which are essential for upgrading health and stamina. This section details shrine locations and strategies to acquire all Spirit Orbs for 100% completion.

Shrine Locations and Types

There are 120 shrines in total, categorized into puzzle shrines, combat trials, and treasure hunts. Exploration and observation are necessary to locate all shrines, many of which are hidden or require specific conditions to access.

- Use the Sheikah Sensor to detect shrine proximity.
- Explore diverse terrains including mountains, forests, and deserts.
- Complete shrine quests that involve environmental manipulation or combat challenges.

Spirit Orb Utilization

Each shrine completion rewards one Spirit Orb. Collecting four Spirit Orbs allows Link to exchange them for either a heart container or a stamina vessel. Balancing these upgrades is crucial for overcoming the game's obstacles and achieving full completion.

Side Quests and NPC Interactions

Side quests are an integral part of Breath of the Wild's 100% walkthrough. They provide additional lore, rewards, and gameplay depth. Engaging with non-playable characters (NPCs) unlocks these quests scattered across Hyrule.
