Overview of Delta Premium Select on the 767-300

The delta premium select 767-300 cabin is a premium economy class product designed to meet the needs of passengers seeking extra comfort without the price tag of first or business class. Introduced as part of Delta's efforts to upgrade its international and select domestic services, Premium Select offers an enhanced travel experience through improved seating, additional legroom, and upgraded service standards. The 767-300 aircraft, equipped with this cabin, typically features a dedicated Premium Select section located between Delta One suites and the main economy cabin, providing passengers with a quieter and more exclusive environment.

Design and Layout

Delta's Premium Select cabin on the 767-300 generally comprises a 2-3-2

seating configuration, which is more spacious compared to the 3-3-3 layout found in main cabin economy. This layout allows for wider seats and increased personal space, catering to travelers who value comfort on longer journeys. The seat pitch usually ranges from 38 to 39 inches, offering significantly more legroom than standard economy. Additionally, the cabin is designed with a modern aesthetic, featuring subtle color schemes and ambient lighting to enhance passenger comfort.

Target Passenger Segment

This premium economy product appeals primarily to business travelers, leisure travelers on long-haul routes, and those who desire a middle ground between economy and business class. Delta strategically markets Premium Select as an affordable upgrade option that delivers value through added comfort and amenities without the expense of first-class travel.

Seating and Cabin Comfort

Comfort is a central focus of the delta premium select 767-300 experience. The seats are engineered to provide enhanced support and ergonomics, improving passenger rest and productivity during flight.

Seat Features

Seats in Premium Select come equipped with adjustable leg rests and headrests, allowing passengers to customize their seating position for maximum comfort. The seats are wider than economy class, typically measuring around 19.5 inches in width, and feature a recline of approximately 7 inches. These improvements contribute to a more restful and relaxing journey.

Cabin Ambiance

The cabin environment in Premium Select is designed to be peaceful and inviting. Delta incorporates mood lighting technology that adjusts according to the time of day to reduce jet lag and promote relaxation. Additionally, the cabin's noise levels tend to be lower due to its separation from the main economy section, providing a quieter atmosphere for reading, working, or resting.

Storage and Power

Each Premium Select seat includes additional storage options, such as larger seatback pockets and under-seat space for personal items. Passengers also have access to in-seat power outlets and USB ports, enabling them to charge

electronic devices conveniently throughout the flight.

Inflight Amenities and Services

Passengers flying delta premium select 767-300 enjoy a range of enhanced inflight amenities and services that contribute to a superior travel experience compared to standard economy class.

Entertainment System

The cabin is equipped with larger, high-definition personal entertainment screens, typically measuring around 13.3 inches. This system offers a broad selection of movies, TV shows, music, and games, catering to diverse passenger interests. Noise-canceling headphones are often provided to improve audio clarity and reduce ambient noise.

Wi-Fi and Connectivity

Delta offers reliable onboard Wi-Fi services across the 767-300 fleet, allowing Premium Select passengers to stay connected for work or leisure. This connectivity is available for purchase or included as part of certain fare packages or loyalty tiers.

Priority Boarding and Baggage Handling

Premium Select passengers benefit from priority boarding, enabling them to settle in earlier and avoid the crowds typical of economy boarding groups. Additionally, priority baggage handling ensures quicker luggage delivery upon arrival, reducing wait times at the destination airport.

Dining Experience on Delta Premium Select

The delta premium select 767-300 dining experience is an important aspect that differentiates this cabin from economy class. Enhanced meal service and beverage options are offered throughout the flight.

Meal Service

Passengers receive complimentary premium meals prepared with higher quality ingredients and more diverse menus compared to economy class. The meals often feature regional and seasonal selections aligned with the route's origin or destination. Special dietary requirements can be accommodated with advance notice.

Beverages and Snacks

A curated selection of complimentary wines, spirits, and non-alcoholic beverages is available to Premium Select travelers. Additionally, snacks and light refreshments are provided during the flight to maintain passenger comfort.

Tableware and Presentation

Meals are served on upgraded tableware with real cutlery rather than disposable items. This attention to detail enhances the overall dining ambiance and elevates the passenger experience.

Routes and Aircraft Deployment

The delta premium select 767-300 cabin is deployed primarily on international and certain transcontinental routes where passenger demand for premium economy is highest. Delta strategically schedules the 767-300 aircraft with this configuration on flights that benefit from the added comfort and amenities.

Common Routes

Popular routes featuring the delta premium select 767-300 include transatlantic flights between the United States and Europe, such as New York to London and Atlanta to Paris. The cabin is also used on some transpacific routes and select domestic flights connecting major hubs.

Fleet Characteristics

The Boeing 767-300 is a versatile wide-body aircraft capable of flying long distances efficiently. Delta's configuration with Premium Select typically includes three cabin classes: Delta One (business/first class), Premium Select, and Main Cabin. The 767-300's range and capacity make it an ideal platform for premium economy services on medium and long-haul sectors.

Booking Tips and Fare Information

Understanding how to book delta premium select 767-300 and what to expect regarding fares can help travelers make informed decisions and maximize their experience.

Fare Classes and Pricing

Premium Select fares are positioned between main cabin economy and Delta One pricing. They often represent a competitive value for travelers seeking enhanced comfort without the full business class cost. Airlines frequently offer promotional fares or upgrades from economy that make Premium Select more accessible.

How to Select Seats

When booking, passengers should consider selecting seats in the forward section of the Premium Select cabin for quicker service and easier access to lavatories. Seat maps are available during booking, and Delta's website or app provides detailed information on seat pitch and configuration.

Frequent Flyer Benefits

Delta SkyMiles members may be eligible for complimentary or discounted upgrades to Premium Select based on their status. Additionally, miles can sometimes be redeemed directly for Premium Select fares, providing added flexibility for loyal customers.

- Check for upgrade offers during online check-in
- Book early to secure preferred seats
- Monitor fare sales for reduced Premium Select pricing
