Cabin Layout and Seating Configuration

The Lufthansa business class cabin on the Airbus A340-300 is designed to maximize passenger comfort while optimizing space. The aircraft typically features a two-class configuration, with business class positioned at the front of the aircraft, providing easy boarding and disembarkation.

Business Class Cabin Design

The cabin layout usually consists of four rows of business class seats arranged in a 2-2-2 configuration. This setup allows for aisle access for every passenger, which is a significant advantage for comfort and convenience on long-haul flights. The cabin ambiance features modern styling with subtle lighting and high-quality materials, creating a calm and sophisticated environment.

Seating Capacity

On the Airbus A340-300, Lufthansa's business class can accommodate

approximately 44 to 48 passengers, depending on the specific aircraft configuration. This capacity strikes a balance between exclusivity and operational efficiency, ensuring a roomy experience without sacrificing airline economics.

Seat Features and Comfort

One of the defining aspects of Lufthansa business class on the Airbus A340-300 is the seat design which focuses on both ergonomics and luxury. The seats convert into fully flat beds, allowing passengers to rest comfortably during overnight flights.

Fully Flat Bed Seats

The seats recline into a fully flat position, measuring approximately 6 feet 3 inches in length. This feature is essential for long-haul travelers needing uninterrupted rest. Padding and cushioning are of high quality, supporting various seating postures whether working, dining, or sleeping.

Additional Comfort Features

- Adjustable headrests and lumbar support for personalized comfort
- Privacy dividers between seats for added seclusion
- Ample legroom and storage compartments for personal items
- Power outlets and USB ports for device charging
- High-quality bedding including pillows and blankets
