Dylan's fragment, often referred to as "Rock Me Mama," contained the chorus and a few lines but was never fully developed into a complete song during his sessions. The tape circulated among fans and musicians, inspiring subsequent artists to complete the piece. Dylan's original contribution laid the foundation for what would become a classic in the country and Americana genres.

Bob Dylan's Initial Composition

Bob Dylan's original recording of the song was a loose, informal piece captured during the Pat Garrett & Billy the Kid soundtrack sessions. The chorus, featuring the memorable line "Rock me mama like a wagon wheel," showcased Dylan's signature lyrical style and rustic imagery. Rediscovery and Influence

The unfinished demo circulated through bootlegs and folk circles, capturing the imagination of many musicians. Its catchy melody and evocative lyrics made it an appealing base for further development.

Among those influenced was Ketch Secor, a member of Old Crow Medicine Show, who sought to complete the song and bring it to a broader audience. This collaboration between Dylan's original idea and Secor's creative input resulted in the song wagon wheel original that is widely recognized today.
