- Frequent Flyer Benefits and Upgrades

Seating Configuration and Comfort

The seating arrangement in the United 767 400ER business class is designed to optimize passenger comfort and privacy. Typically configured in a 2-1-2 layout, the cabin accommodates a moderate number of passengers while ensuring ample personal space. Seats are wider and have greater recline compared to economy and premium economy classes, allowing travelers to rest or work efficiently during the flight.

Lie-Flat Seats

One of the standout features of the United 767 400ER business class is the availability of lie-flat seats. These seats convert into fully flat beds, enabling passengers to sleep comfortably on long-haul flights. The lie-flat mechanism is especially beneficial for overnight journeys, providing superior rest and reducing jet lag.

Seat Dimensions and Features

Seats in the business class cabin typically measure around 20-22 inches in width with a pitch of

60-62 inches. Each seat includes adjustable headrests, lumbar support, and ample legroom. Passengers also benefit from direct aisle access in most seats, enhancing privacy and ease of movement during the flight.

Storage and Power Outlets

Storage compartments are conveniently located for personal items, laptops, and essentials. Each seat is equipped with power outlets and USB ports, allowing passengers to charge electronic devices throughout the flight. This setup supports productivity and entertainment without interruption.

In-Flight Entertainment and Connectivity

United Airlines equips the 767 400ER business class with advanced in-flight entertainment systems to keep passengers engaged and comfortable. The entertainment options cater to a wide range of preferences, from movies and TV shows to music and games.

Personal Screens

Each business class seat features a personal touchscreen monitor, typically ranging from 15 to 17 inches. These screens provide access to a vast library of on-demand content, including the latest films, television series, documentaries, and audio programs.

Wi-Fi and Connectivity

Wi-Fi service is available onboard the 767 400ER, allowing passengers to stay connected during their flight. While Wi-Fi speed can vary, it supports basic browsing, messaging, and email functions. Business travelers can use the connectivity to work remotely or stay in touch with colleagues and family.

Noise-Canceling Headphones

To complement the entertainment system, United provides noise-canceling headphones in business class. These headphones enhance audio quality and reduce ambient noise, contributing to a more immersive and relaxing experience.

Dining Experience in United 767 400ER Business Class

United's business class dining onboard the 767 400ER aims to deliver a high-quality culinary experience with a focus on freshness, variety, and presentation. Meals are designed to cater to diverse tastes and dietary requirements.

Multi-Course Meals

Passengers enjoy multi-course meals prepared with premium ingredients. The menu often includes appetizer options, main courses featuring meat, seafood, or vegetarian dishes, and dessert selections. Seasonal and regional variations are common, reflecting the route and time of year.

Complimentary Beverages

The business class cabin offers a wide selection of complimentary beverages, including fine wines, spirits, soft drinks, and specialty coffees and teas. Flight attendants provide attentive service to ensure passenger satisfaction throughout the meal service.

Special Dietary Requests

United Airlines accommodates special dietary needs such as gluten-free, vegan, kosher, and halal options. Passengers are encouraged to request these meals in advance to ensure availability and proper preparation.

Additional Amenities and Services

The United 767 400ER business class experience extends beyond seating and dining to include a range of amenities designed to enhance passenger comfort and convenience.

Priority Boarding and Baggage Handling

Business class passengers benefit from priority boarding, allowing them to settle in early and avoid crowds. Additionally, priority baggage handling ensures that checked luggage is among the first to arrive at the destination carousel.

Lie-Flat Amenity Kits

Passengers receive amenity kits containing essentials such as eye masks, earplugs, skincare products, and dental kits. These kits contribute to a comfortable and refreshed travel experience, especially on overnight flights.

Lounge Access

Business class travelers on United 767 400ER flights have access to United Club lounges or partner lounges at many airports. These lounges offer comfortable seating, complimentary snacks and beverages, Wi-Fi, and business facilities.

Frequent Flyer Benefits and Upgrades

Travelers flying business class on the United 767 400ER can take advantage of several frequent flyer program benefits and upgrade opportunities.

United MileagePlus Program

Members of United's MileagePlus loyalty program earn miles when flying in business class, which can be redeemed for future flights, upgrades, or other rewards. Business class tickets typically accrue more miles compared to economy fares.

Upgrade Options

Passengers may use miles, upgrade certificates, or elite status to upgrade from economy or premium economy to business class on the 767 400ER. United also offers complimentary upgrades to elite members on select routes, subject to availability.

Additional Perks for Elite Members

Elite members in the MileagePlus program enjoy extra benefits such as increased baggage allowance, priority check-in, and dedicated customer service lines. These perks enhance the overall travel experience on United 767 400ER business class flights.

- Spacious lie-flat seating with direct aisle access
- Personalized in-flight entertainment with large touchscreens
- Complimentary multi-course dining and premium beverages
- Priority boarding and baggage handling
- Access to United Club lounges worldwide
- Generous MileagePlus earning and upgrade opportunities
