Choosing Optimal Starter Words

Starting with words that contain frequently used vowels and consonants helps maximize information gained from initial guesses. Words like "adieu," "crate," and "slate" are popular choices because they cover common letters, helping to eliminate or confirm multiple possibilities early on.

Analyzing Letter Frequency and Placement

Paying attention to which letters are confirmed correct (green), present but misplaced (yellow), or absent (gray) guides subsequent guesses. Understanding the frequency of letters in the English language and their typical positions in words can refine guesses and narrow down the solution efficiently.
